LAURA EDWARDS  
PRIMARY EXAMINER

Art Unit: 1734

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with L. James Ristas on 12/10/04.

The application has been amended as follows:

**In the claims:**

In claim 1, line 4, "adhesion" has been changed to --adhesive--.

In claim 1, line 5, "the well" has been changed to --the wheel--.

In claim 8, line 4, "the" has been removed from in front of "tracts".

In claim 11, line 4, "blades" has been changed to --blade--.

In claim 20, line 4, "the" has been removed from in front of "tracts".

The following is an examiner's statement of reasons for allowance:

Claims 1-20 would be allowable because there is no teaching or suggestion in the prior art of a device for applying an adhesive to a projectory spine region of an inner book while conveyed in a transport system comprising the combination of at least one rotating application wheel which picks up adhesive from a reservoir and transfers said adhesion to the inner book by rolling-off; a doctor blade confronting the wheel an adjustable distance for regulating the application thickness of the adhesive; an actuating device for controlled movement of the doctor blade between an application position and a zero-application position, wherein the actuating

device includes at least one contraction hose controllable via compressed air and functioning as a single-acting pull actuator.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### *Conclusion*

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following patent discloses the state of the art with respect to a booking binding apparatus including the use of hose: US5129772.
